

ABB's BALDOR-RELIANCE® NEMA MOTORS

Severe Duty XT Series from ISC Companies

ISC Companies is building upon its long-standing and successful distributor relationship with ABB/Baldor-Reliance by entering into a new agreement with the manufacturer—the 2021 ABB NEMA Motors Division XT Severe Duty Red Motor Program.

This partnership allows us to offer price advantages over other distribution channels and fast product delivery, made possible by a stocking commitment with Baldor-Reliance.

We have XT motor inventory on the shelf ranging from 1–100 hp at our warehouses in Minneapolis and Rapid City.

Severe Duty XT Motor Features

1–300 hp (foot mounted and C-Face footed), 1–30 hp (C-Face footless)
143T - 449T NEMA frame
